

# 21st Century Security and CPTED

## *Designing for Critical Infrastructure Protection and Crime Prevention, Second Edition*

### Author/Affiliation

**Randall I. Atlas**, Atlas Safety and Security Design, Inc., Fort Lauderdale, Florida, USA

Based on the tenets of Crime Prevention Through Environmental Design (CPTED), the updated edition of this popular reference blends new design elements with the latest best-practice security measures. Illustrated with hundreds of photographs and line drawings, the text emphasizes consideration of security aspects throughout the design process, including how to take stock of open spaces, avoid blind corners, and use landscaping to create secure spaces. The author updates these classic principles to include the latest design capabilities given new security and building construction technologies. This edition includes new chapters on security and sustainability.
